Letter of confirmation for the project: Multiplace Network 2015 – How to Survive

Moiré is established 2003 for representing and developing the hungarian experimental and computer music scene. We started Dióbel Recordings (2002), Periszkóp Rádió (2006) and the Ott digital music text translation review (2008), organized several events in Pécs, Budapest and Székesfehérvár, some of them with collaboration with universities and cultural associations from Germany (Open Systems of Essen, New Talents Biennale of Cologne, Privatelektro's Headphone Festival of Berlin), Czech Republic (Forum4AM) and France (Aix-en-Provence School of Arts) etc.

Moiré Association for Culture took part in previous Multiplace network activities and we really appreciate to continue in our fruitful collaboration. Our role as the partner of the project MULTIPLACE NETWORK 2015 – HOW TO SURVIVE will consist mainly in:

- cooperating and co-curating the main program of the festival in Pécs and partner cities
- taking part in the meetings of the organizers before and after festival
- joint promotion in our radio station and website
- cooperate as contact point for project partners and their V4 cultural activities or artists in Pécs (Hungary)
- cover agreed part of „in kind“ expenses related to the project activities

We hereby confirm our official partner role in the project and looking forward to realize it.

With best regards,

Pécs, 01. 09. 2014

Balázs Kovács
